

Is there a TIGER in your yard?

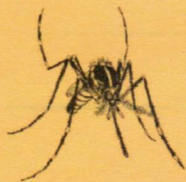

Meet your new pest

The Asian Tiger Mosquito

This aggressive mosquito is black with white stripes on its legs and a white stripe down the middle of its head and back. These stripes give it the name "Tiger" Mosquito. This mosquito breeds in any container holding water. Like other mosquitoes we have in Rockland County, these mosquitoes can carry several diseases, including West Nile Virus and dog heartworm. Unlike many of the other mosquitoes we have in Rockland, they bite all day, not just at dusk and dawn!

Want To Hunt The Tiger?

*How many mosquitoes
can YOU prevent
by picking up
1 garbage bag of litter?*

Did You Know...?

According to Rutgers University

1 bucket will produce over
700,000 mosquitoes
in a single summer.

1 tire, over 405,000

1 snack bag, 57,000

1 child's toy could produce
nearly 1,200,000 mosquitoes!
